MALAYSIAN MADE INTELLIGENT

ON-STREET PARKING SYSTEM

A PRODUCT OF
"MALAYSIA BOLEH"
SPIRIT

PM 2000-Winner of Silver Medal at Geneva 2001 & I.Tex 2000
and The Millennium Prestige Award, Spain 2001.

World's first intelligent parking meter, pay to the minute used,

A Malaysian-made meter, designed with people and enviro

• DOES NOT CONTRIBUTE TO POLLUTION
(Powered by Solar Cell)

• NO COMPLICATED PROCEDURES

• NEED NOT WALK FAR TO PAY

MALAYSIAN MADE INTELLIGENT
ON-STREET PARKING SYSTEM

ment in mind, developed in collaboration with SIRIM Bhd

An established and well received method of collecting parking fees. Very convenient to the user, operator and enforcement officers

User acceptance increases revenue and reduces problems, enabling implementation and enforcement of user friendly on-street paid parking systems

A meter made with environment-friendly features. No paper based consumables. As world's first on-street parking meter with in-built solar cells, provides environment-friendly alternative source of power

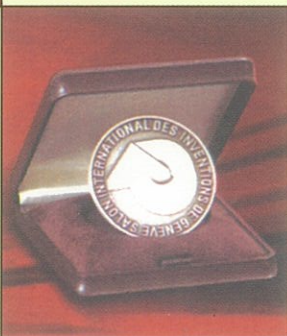

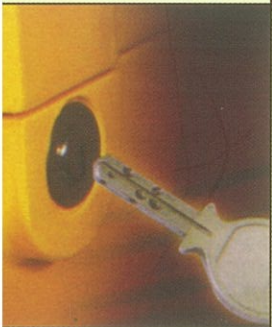

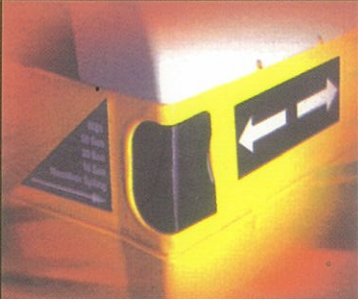

No need to pay for an hour although using the parking bay for a much shorter time as in some other systems. Short minimum time, i.e. RM 0.10. Perceived as fair by users, thus increases revenues as short time users willingly pay and reduces vandalism .

The meter is made to cater for future upgrades. It has optional upgrades for intelligent coin box and smart card use. A meter made to meet the on-street parking requirements and not burdened with costly high-tech features that are of little benefit to users.
